

Decorative Wire Mesh

Indoors or out, decorative wire mesh is a perfect choice for any home decor, craft, or yard and garden project.

Beautiful, Versatile & Long-Lasting

Decorative wire mesh is a product embraced by DIYers, interior designers, and craftspeople. From decorative accents and cabinets to lighting features and privacy screens, design possibilities are endless.

Explore Your Options: Metals, Weaves & Finishes

Decorative mesh is available in a variety of metals, weaves, and finish coatings. Whether you want a chic industrial look or the warmth of antique charm, there's a wire mesh material perfect for you.

Metals

Brass & Bronze

Brass and bronze mesh materials share similar benefits and uses. However, there are a few differences in composition and color.

Brass

Composition

Brass is an alloy of copper and zinc.

Color

Brass mesh has a golden yellow color.

Bronze

Composition

Bronze is a metal alloy usually consisting of 90% copper and 10% tin.

Color

Bronze mesh is typically reddish brown in color.

Brass & Bronze

Benefits

- ✓ Good tensile strength
- ✓ Abrasion resistant
- ✓ Corrosion resistant (dependent on composition)
- ✓ Durable

Uses

- ✓ Cabinet screens
- ✓ Interior or exterior lighting features
- ✓ Fireplace screens
- ✓ Home decor accent pieces
- ✓ Sculptures
- ✓ Decorative glass inlays

Stainless Steel

Benefits

- ✓ High tensile strength
- ✓ Wear resistant
- ✓ Corrosion resistant

Uses

- ✓ Modern cabinet designs
- ✓ Fencing
- ✓ Restoration projects, such as antique auto grills
- ✓ Stair railing infill
- ✓ Privacy screens
- ✓ Wall dividers

Weave Types

For any decorative mesh project, you'll want to select a weave type that is both functional and suited to your design. Luckily, there are many to choose from!

Flat wire

Flat wire mesh is used in a wide range of decorative applications. There are many patterns and finishes available, making it easy to create a unique style for projects such as kitchen remodels and furniture restoration.

Hexagonal

Hexagonal decorative mesh has a honeycomb-style weave. It's a favorite choice for use in French Country- cabinetry and furniture. It's flexibility makes it a popular option for yards and gardens as well.

Intercrimp

Intercrimp wire mesh is easily recognized due to the "crimps" in the wire, which add stability to the material. It's distinctive appearance make it a great choice for garden and lighting applications as well as trellises.

Surface Finish Coatings

Wire mesh secondary finish coatings help the material achieve a specific color and reflectivity. Additionally, these finishes usually provide another level of corrosion resistance.

Antique Brass, Bronze & Nickel

The old is new again with these beautiful antique finishes! These looks are created by adding antique-style plating over steel.

Antique brass

Brown patina with brass highlights that includes a double lacquer clear coat.

Antique bronze

Two finishes to choose from: no coat (pure bronze) and plated bronze (clear coat).

Antique nickel

We offer a variety of decorative antique nickel plated meshes with clear coat finishes, including Tango Antique Nickel, Orleans Antique Nickel, Oxford Antique Nickel, and Fandango Antique Nickel.

Electropolish

Electropolishing removes a materials surface texture, leaving it smooth and reflective.

Mill Finish

Mill finish refers to the surface finish of mesh after it is manufactured. The texture is usually rough, but some mill finished mesh is also polished, smooth, and uniform.

Bring Your Project to Life

Whether you're a DIYer, designer, or craftsman, there's a decorative wire mesh option to complement your project and design.

Our laser-cutting services mean you can get your material custom-cut to your specific needs. Have questions? We invite you to get in touch to discuss your project with our expert team.
